There are two parking opps – one is the parking deck on states street == walk up the hill to Kendeda – there is also a visitors surface lot (that may be full) diagonally across from kendeda behind the physics building

Jay,

Do you have any tips on where to park?

Importance: High

Hey Barbara

Please see the proposed agenda – would you be willing to provide some short remarks (2 mins) as the Keynote speaker on importance of this effort from an EPA perspective both from a materials – decarbonization view as well as part of building “thriving communities”...

Jay

Subject: 4/14 Breaking Barriers graduation ceremony

Maher - I am reaching out to confirm if you are able to join us for our Breaking Barriers Through Deconstruction graduation ceremony tomorrow from 2:30-3:30pm at Georgia Tech's Kendeda Building? An invitation has been sent by Jackie Zong to both you and Kamran, and we sincerely hope you can both make it.

We also deeply appreciate Roswell Community Masjid's incredibly generous support and sponsorship for the Breaking Barriers program, and would be delighted to have you or another RCM representative share a few words during the ceremony. (see attached agenda for details) Please let us know if you can attend the ceremony or any of the other activities we have planned at Kendeda on Friday. You are more than welcome to participate in any aspect of this celebratory day as we work to support our student's transition out of the program and into the next steps of their individual journeys toward greater success and fulfillment.

Thank you, and I hope to see you tomorrow!
